ment Systems"*

About Us

Bio Thailand Group began as an importer and distributor of medical and public-health products under Bio Inno Tech Co., Ltd.

We are specialists in infection control and medical sterilization, as well as the prevention and control of other communicable diseases in the public-health sector. Driven by the vision and commitment of our management team, we aim to be a leader in innovative products for the medical, health, public-health, agricultural, and environmental sectors.

Under Bio Inno Tech (Thailand) Co., Ltd., we support product supply for our corporate group and for customers who recognize the importance of innovation.

Concept Of

"Products must deliver high quality and high standards, ensuring safety for users and the environment, supported by excellent service."

Quality Policy

Bio Thailand Group is committed to developing high-quality products and services that meet international standards, driven by innovation. We strive to lead in the manufacturing of medical, public-health, and environmental products, with continuous improvement in both processes and personnel to ensure the highest level of customer satisfaction.

High Quality | High Technology | High Safety
High Service | High Confidence

Message from the Director

With more than 20 years of experience in the medical, public-health, and environmental sectors—as both an importer and authorized distributor—we have continuously observed the opportunities and challenges within Thailand’s public-health landscape. We are therefore prepared to drive our business in alignment with national public-health policies and the country’s innovation-driven economic direction.

In 2020, we invested over 200 million baht to establish a standards-certified manufacturing facility in Lam Luk Ka District, Pathum Thani Province, dedicated to producing sustainable public-health and environmental innovation products. We have collaborated on research and development with the National Science and Technology Development Agency (NSTDA), the National Nanotechnology Center (NANOTECH), the Department of Medical Sciences under the Ministry of Public Health, the Faculty of Medical Technology at Mahidol University, and others to deliver innovative products that are high-quality, safe, and internationally compliant. This effort elevates Thailand’s public-health products and supports the export of Thai innovations worldwide.

We pledge to continuously develop products that strengthen the nation’s medical, public-health, and environmental security through innovation-driven advancement.

Certifications

"COMPLIANT WITH EVERY STANDARD FOR SUPERIOR QUALITY"

BIO INNO TECH THAILAND

Standard GMP-CODEX and ISO9001:2015–certified manufacturing facility for producing public-health, medical, agricultural, and environmental products, delivering innovations researched and developed by Thai experts under the concept:

“Creating Thai innovations for Thailand, for the world, and for sustainable well-being.”

PRODUCTS GROUP

Medical Products

Low Temperature Hydrogenperoxide Plasma

CASP[®]

Disinfectants, Medical Instrument Cleaning Solutions, Medical Supplies and Consumables

- ✓ Patient-care equipment
- ✓ Patient lifts
- ✓ Standing aids
- ✓ Patient-lifting slings
- ✓ Imported from France.

Public Health Products

Disinfection and Cleaning Products

- ✓ **Agermgo**
Zinc Ion Disinfectant (Thai Innovation List)
- ✓ **Enzyplex Cleaner**
Natural Enzyme-Based Cleaner for Protein and Fat Removal (Thai Innovation List)
- ✓ **Agermgo Ready**
Ready-to-Use Zinc Ion Disinfectant (Thai Innovation List)
- ✓ **Foty Spray**
75% Alcohol Hand Sanitizing Spray with Zinc
- ✓ **Foty Soap**
Anti-Bacterial Hand Wash with Zinc
- ✓ **Foty Wipe**
Disinfectant Wipes Infused with Antimicrobial Agents and Zinc*

Mosquito Control Products

- ✓ **Aquaspread**
Single-molecule film larvicide for Aedes mosquito larvae and pupae (Thai Innovation List)
- ✓ **Laai**
Nano-encapsulated Icaridin mosquito-repellent spray (Thai Innovation List)
- ✓ **Ovacide Total Impact**
Granular larvicide for eliminating Aedes mosquito larvae and pupae (Thai Innovation List)
- ✓ **Laai Guard Bio Space**
Outdoor spray product for mosquito and insect prevention (Thai Innovation List)
- ✓ **Laai Guard NANO**
Fogging agent for mosquito and insect control (Thai Innovation List)

Environmental Products*

Products for cleaning and removing dirt, waste, and sewage, including wastewater treatment and odor elimination for garbage, septic tanks, and waste pits.

- ✓ Natural, non-chemical, non-microbial products
- ✓ Tested for efficacy and safety by government agencies
- ✓ BIOFLOCCULATION AND BIO-CLEANING PRODUCT
- ✓ Manufactured in GMP- and ISO9001-certified facilities

Pest and Vector Control Products

✓ Laai Guard Rodi GO

Laai Guard Rodi Go – Herbal Rodent-Repellent Spray

✓ Laai Guard Fly Away Plus

Laai Guard Fly Away Plus – Herbal Spray for Repelling Flies and Flying Insects

Agricultural and Livestock Products

✓ Agermgo

Zinc Ion Disinfectant (Thai Innovation List)

✓ Enzyplex

Natural Extract for Protein and Fat Decomposition (Thai Innovation List)

✓ Atom AMPK

Growth enhancers for livestock to increase weight, fat content, and milk quality.

✓ BIO Pro

Converting agricultural materials into animal feed, microbial ferment for animal-feed plants, and microbes for decomposing rice stubble.

✓ Atom Super DD

Specialized bio-stimulant for increasing crop yields;

easy to use and suitable for spraying throughout the day.

AumDin

Water-retention polymer for crop cultivation in drought-prone areas.

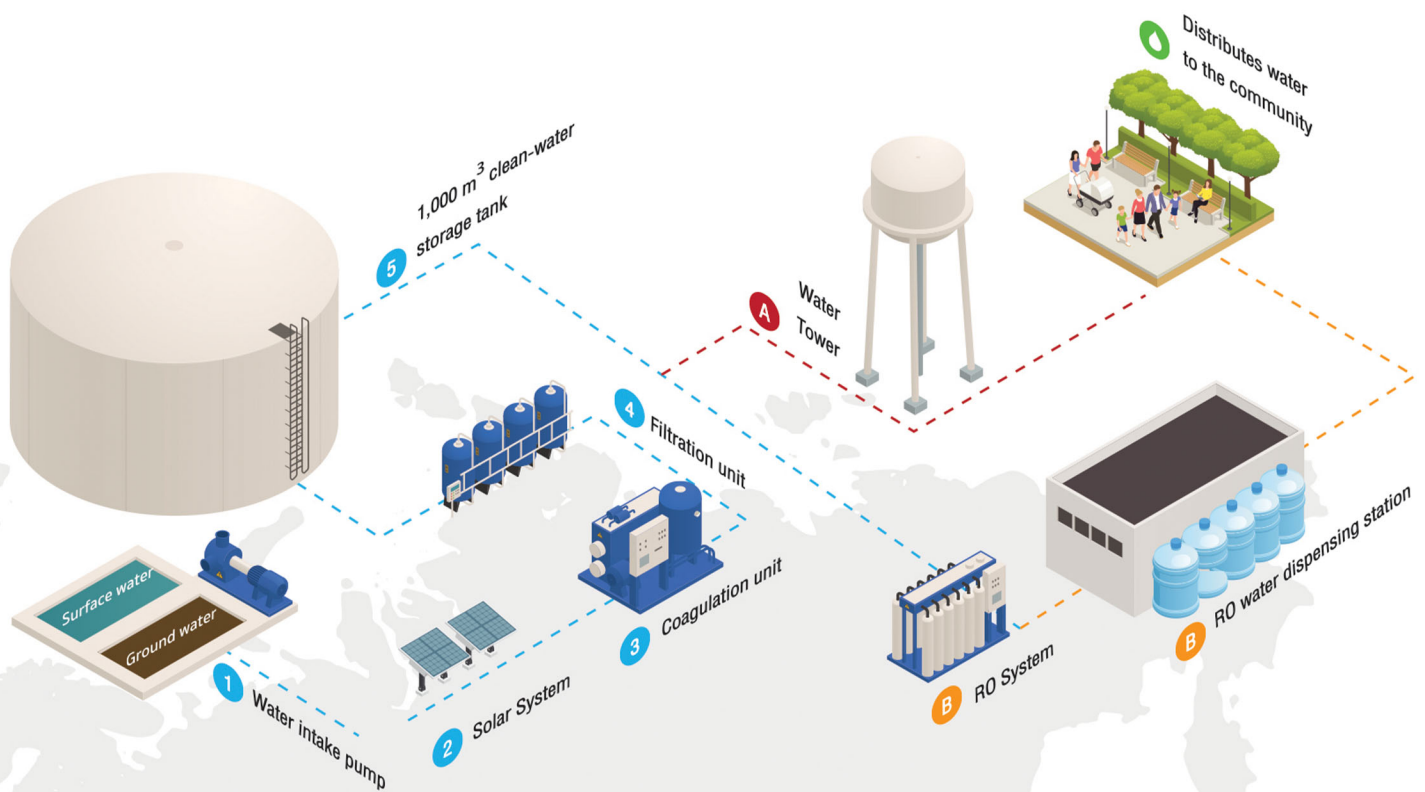

Water Management and Water Storage Expansion Project

Pre-engineered modular water-storage system – BIO TANK
for household, industrial, agricultural, and commercial use
www.biowatertank.com

1

Anthracite Filter Tank for Sediment Filtration

2

Manganese Filter Tank for Iron and Rust Removal

3

Carbon Filter Tank with Nano-Infused Disinfectant for Odor and Color Removal and Disinfection

4

Resin Softener Tank and Brine Tank for Limestone Removal

Products Listed in the Thai Innovation List by the Bureau of the Budget

	Thai Innovation List Products	ID	Price
